Lightweight Language Navigation '13

I'm a "Navigator" of LL Event.

The chairman of the conference.
The leader of the Executive Committee.

Lightweight Language ?

Perl Ruby Python
PHP JavaScript
LISP Haskell Scheme
shell sed awk
etc....

Programming languages
to be able to write easily,

and

The community of people
interested in those languages.

Lightweight Language Event

Conference for LL programmers.
Since 2003, every summer we have the event.
About 300-1000 people come together.

Feature

Collaboration with many programming language communities.

All work by the volunteers.

Low-cost participation fee.
(about 2000 yen)

No sponsor.

It continues more than 10 years.

Lightweight Language Matsuri

Message for developers

What is the
lightweight language ?

... It's meaningless.

What is the better programming ?

What can we do ?

and

Action !!

LL Event is one of
implementation for this issue.

Discussion about ...
useful programming languages,
tools, technique, environment,
etc...

One of the output

In Japan, there is a programmers' community and event beyond the languages.
