Hirooyuki HOURIN

法林浩之

Freelance Engineer
Steering Committee, Japan UNIX Society

Working in the IT community
for more than **20 years**.

Japan UNIX Society (jus)

One of the IT community pioneers in Japan
About to **30th anniversary** (established in 1983)

KANSAI OPEN SOURCE 2012

Let's make the place that open source and the community can energetically exchange also in Kansai

関西オープンソース 2012

jus研究会 JAPAN TOUR

10 THE ANNUAL LIGHTWEIGHT LANGUAGE EVENT 2012
LL DECADE
SATURDAY WEEKEND DAY&NIGHT RING
SPRIT FUTURE TELEVISION TIGER PLANETS

IC2012
@Toyama

Internet Week 2012

～人のチカラ、インターネットのチカラ～

2012.11.19(mon) ~ 22(thu)
富士ソフト アキバプラザ

jus covers a wide range of activities
to targeting not only UNIX
but the overall IT.

My career

Encounter with jus

I helped at the UNIX Fair when I was a student. (1989)

I moved to Tokyo due to employment.

At the same time, I joined
the steering committee of jus. (1992)

I managed study meetings and other
activities along with senior members.

Open Source Matsuri (1999-2001)

"Matsuri" means "festival" in Japanese.
The **first exhibition** that brought together
the open source community in Japan.

I was the a moderator
and manager of stage.

Ignited by this, I took charge of
management and chairman
in many events.

KOF (2002-)

KANSAI OPEN SOURCE 2012
Let's make the place that open source and the community
can energetically exchange also in Kansai

関西オープンソース 2012

Kansai **Open Source** +
Kansai **Community** Gathering
Held in Osaka in every autumn.
(2012/11/9-10)

Lightweight Language Event (2003-)

Conference for LL programmers.
(Perl, Python, PHP, Ruby, JavaScript, etc...)

Acted as the **leader** of the Executive Committee.

jus Study Group JAPAN TOUR (2007-)

Research presentations are held at various places in Japan.

TechLION (2011-)

A public talk show for IT engineers,
held in a **live house**.

I have served as the
moderator for more than
700 speakers so far.

Reason of the award

(from my introduction)

Mr. Hiroyuki Hourin is very famous **coordinator and moderator** on promotion of Unix/Linux in so many symposiums.

Success of the Lightweight Language Conference events that counts 10 years is one of achievement that owes to his coordination and activities.

The activity status of IT community in Japan

List of study meetings in Japan
through Google Calendar

Many IT communities
are working in Japan.

And many study meetings
are held every day.

The management style is various.

scale, open/closed, charge/no charge,
relation with business, etc...

Common feature:

"do independently"

planning, hall reservation,
publicity, management, etc...

Background

High-speed Internet

Portable devices

Social media

Japanese are still hard-workers (?)

More important things: "Open Source Mind"

About 15 years have passed since the concept of open source got across to Japan.

The idea was input and spread to IT engineers.

- anyone can participate in the development
- information disclosure is good

Personal
thought

We can contribute to
OSS **without writing**
source code.

Contributions other than development are also important.

I want you to practice the kind of contribution **you can do**.

But, please **do not forget respect** for our engineers.

Because, if there were no developers, OSS would not progress.

Let your activities
be known by others

It is important that they are
YOUR own activities.

Your worth would not
increase by only retweeting
or sharing information.

Spreading information actively

Although I had worked for more than 20 years, I was awarded at last this year.

Last year, I had the opportunity to let more people know about my activities by spreading related information.

I think it was good in order to be prised.

Just **keep on moving**

Especially in the fields
that most people
find difficult

What OSS developers are poor at

Coordination, Negotiation,
Decision-making, Management of
community and events,
and long-term actions

Consider the advancement of the project before your own role, and take the required action.

And continue for a long time.
(about 20 years maybe :-))

Probably in this regard,
I have used much more time
than anybody.

The man who has
contributed to OSS ...

... by lip service ? :-)

The man who has
contributed to OSS ...

... by **ACTIONS** !! (^_^)v

But, if no one would participate,
I could not have continued.

Events and community gatherings can take place thanks to the people who gather there.

I would like to thank **all the people** involved in my activities.

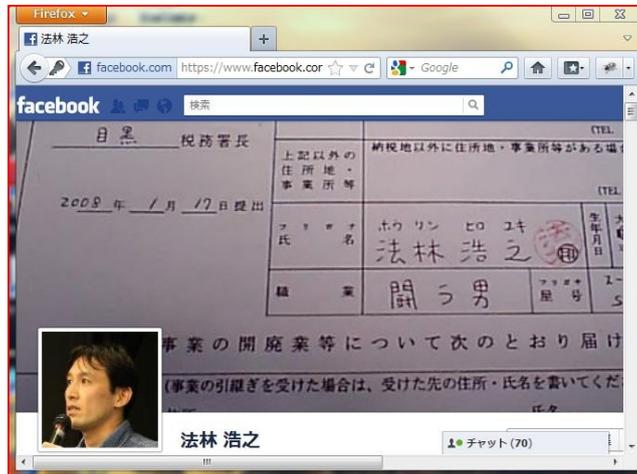

I got the award.

But my work
is not over.

To be continued ...

- 09/22 jus study meeting (Okinawa)
- 09/29 Free lance engineer festival (Tokyo)
- 10/04 TechLION vol.9 (Kobe)
- 10/05 jus study meeting (Kobe)
- 10/06 Kobe IT Festival
- 11/09 Kansai Open Source
+ Kansai Community Gathering (Osaka)
- 11/10 jus study meeting (Osaka)
- 11/12-13 North East OSS Promotion Forum
(Okinawa)
- 11/16 TechLION vol.10 (Tokyo)
- 11/19-22 Internet Week 2012 (Tokyo)
- 12/08 jus study meeting (Fukuoka)
- 01/18 Engineer Support CROSS 2013 (Tokyo)

Please check my activities through various social media.

Search keyword: "Hiroyuki HOURIN"

Thank You !!

I will continue to contribute to OSS
by "ACTION" !!
